THE

Window Collection

Casement · Picture · Bay · French · Gable · Tilt & Turn · Bi-folding · Sliding

Every Origin window is designed to bring more light, better performance and lasting quality into your home. Two precision-engineered systems sit at the heart of the collection — each built to the same exacting standard, each suited to a different way of living.

From ultra-slim contemporary frames to heritage-inspired Georgian bars, every window can be fully customised in colour, configuration and hardware to suit the architecture of your home.

TWO SYSTEMS, ONE STANDARD OF EXCELLENCE

One Standard of Excellence

Both Origin window systems are precision engineered in the UK and backed by a guarantee of up to 20 years — the difference lies in the finish and performance you need.

OW70 — SLIMLINE

Designed for simplicity and minimal visual distraction.

OW80 — PREMIUM

Engineered to perform and offer maximum impact.

Window displayed: OW70 Soho - Colour shown: Sage Green - 7010

OW70

SLEEK, CONTEMPORARY, LIGHT ENHANCING

OW70 Slimline

Epitomised by its minimalist design, the Slimline Window offers sightlines of just 65mm to help maximise glass and your views. Its clean aesthetic brings a disciplined beauty, and with full customisation possibilities, can be tailored to suit any architectural style.

ADDITIONAL FEATURES

- Perfect for properties where an understated yet refined finish is a design priority
- Available in casement, picture and bay designs
- Like all Origin products, it comes with a guarantee of up to 20 years

OW80

HIGH PERFORMING, VERSATILE, TIMELESS

OW80 Premium

With a completely unique internal and external flush casement, the Premium Window is guaranteed to make a strong design statement in your home. On top of being able to be made in vast sizes, it also offers industry-leading performance, achieving U-Values as low as 0.8 W/m²K when selecting Aerogel — the world's best thermal insulator.

ADDITIONAL FEATURES

- Precision engineered for durability, longevity and performance
- Triple-weather seals and bespoke thermal breaks ensure year-round comfort
- Available in multiple options — casement, picture, bay, gable, French and tilt and turn

Three Design Styles

Soho Style

Bold, industrial and striking, the Soho style brings an unmistakable presence to a home. Prominent glazing bars and strong linear detailing channel the iconic steel-style aesthetic, adding depth and architectural drama.

Gallery Style

Minimalist, elegant and beautifully restrained. Defined by generous glazing, slim sightlines and understated hardware, creating bright, open interiors that celebrate natural light and refined simplicity.

Georgian Style

Elegant and full of character, Georgian offers a heritage charm with artisanal detailing. Classic grid patterns and proportioned lines introduce a sense of tradition while maintaining modern performance.

Window Types

Origin windows are available in a number of designs — each fully bespoke to your opening.

Casement

Left, right or top-hung openers.

Picture

Frame every view, without moving parts.

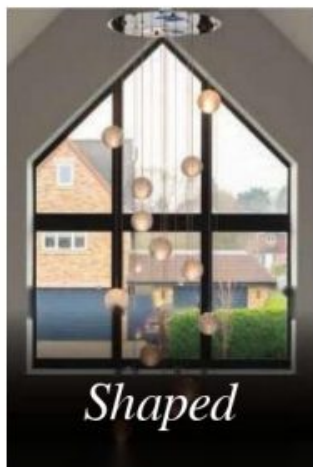

Bay

Adds an extra dimension to any room.

French

A completely unobstructed view.

Shaped

Ultimate impact for grand designs.

Tilt and Turn

Tilt vertically, or open fully — total flexibility.

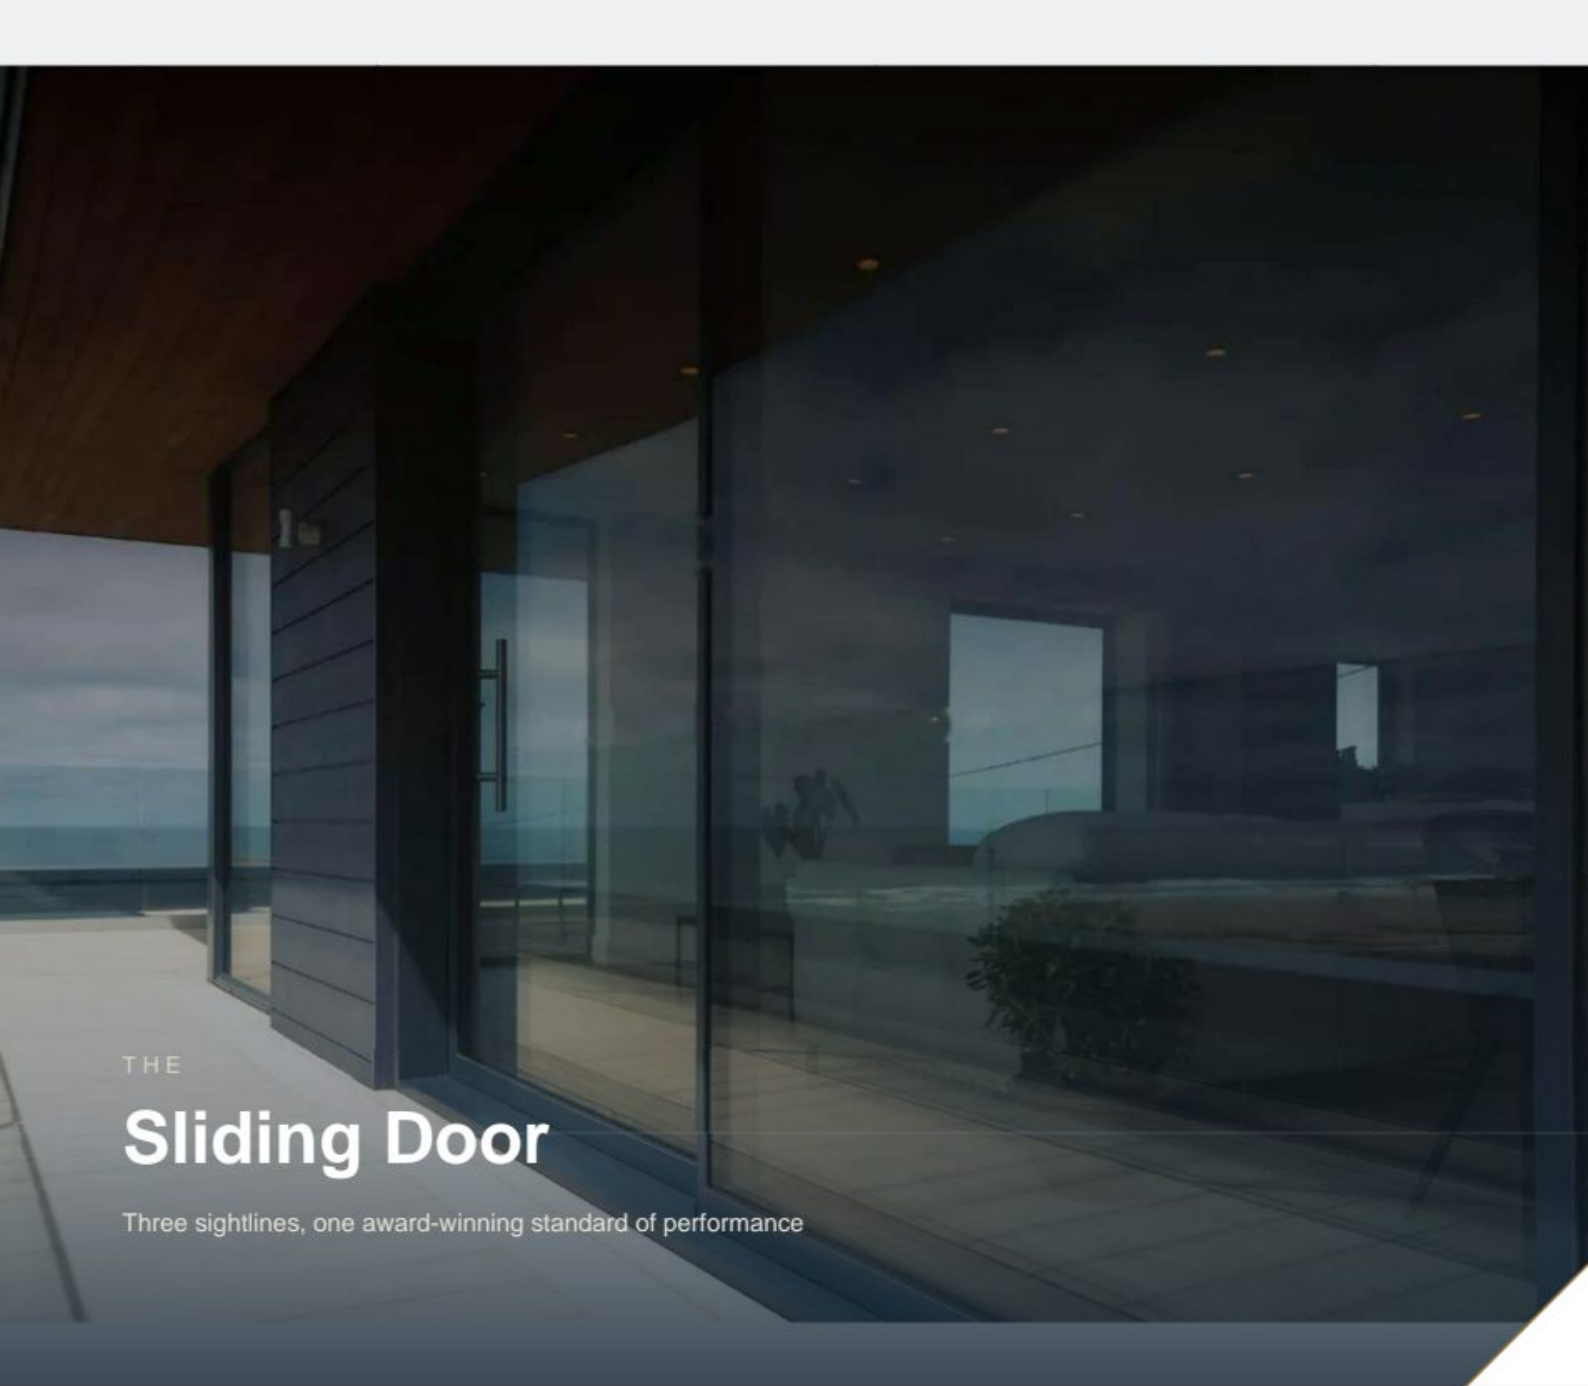

Sliding

A simple push is all it takes.

Bi-fold

Sashes stack away for uninterrupted space.

THE

Sliding Door

Three sightlines, one award-winning standard of performance

Our Sliding Door doesn't just slide — it glides. Engineered with precision running gear and exceptional thermal efficiency, it connects your home to the outside world with effortless, quiet operation — whichever sightline you choose.

Winner — Build It Awards 2025, Best Glazed Doors.

THREE SIGHTLINES, ENDLESS POSSIBILITIES

Frame Your World

Choose the frame that suits your home — from panoramic minimalism to a classic, reassuring presence.

29MM

For maximum light and panoramic views.

44MM

Offers a balanced design for complete versatility.

77MM

Blends a classic styling with modern performance.

Build It Awards 2025 Winner — Best Glazed Doors

29mm

ULTRA-SLIM AND HIGH PERFORMING

29mm Sliding Door

Our slimmest frame yet offers near panoramic views and a minimalist aesthetic, adding a striking focal point to any modern home. This award-winning system is engineered for today's way of living — boasting exceptional thermal efficiency, a sleek flush-stacking option, and detailing that elevates every line and junction for a truly refined finish.

ADDITIONAL FEATURES

- PAS 24 security for advanced protection without compromise
- Vast panel sizes, suitable for apertures up to 13.1m
- Completely bespoke and available with exclusively curated hardware

TWO FURTHER SIGHTLINES

44mm & 77mm Sliding Doors

Whichever sightline you choose, every Origin Sliding Door shares the same precision engineering and guarantee of up to 20 years.

44MM

Balanced by Design, Versatile by Nature

Harmoniously blending elegance and robustness, it's transformative to any architectural style, from considered refurbishments to refined new builds.

- Smooth, quiet operation with specially designed running gear
- Works well in both modern and traditional properties

77MM

Classic, Reassuring, Refined

With a traditional sightline but modern performance, its bold presence brings a design statement to any home, fitting cohesively alongside existing materials.

- Balances timeless elegance with advanced manufacturing techniques
- PAS 24 security to keep you and your family safe

U-Value

SUPERIOR THERMAL EFFICIENCY, ALL YEAR ROUND

Performance & Confidence

In a world where energy matters more than ever, our Sliding Door has been engineered with exceptional, cutting-edge thermal efficiency — with U-Values as low as $0.78 \text{ W/m}^2\text{K}$, far exceeding current British Building Regulation requirements. Every door is backed by a guarantee of up to 20 years on parts, reflecting our commitment to long-term reliability.

ADDITIONAL FEATURES

- Market-leading thermal performance reduces energy bills year-round
- More ISO accreditations than any other UK manufacturer in our sector
- Backed by a guarantee of up to 20 years on parts

A modern gym interior with large sliding glass doors. In the foreground, there is a black Technogym weight bench. To the right, a black and red exercise bike is visible. The large glass doors offer a view of a lush green landscape with trees and a clear blue sky. The ceiling has several recessed lights.

Our Sliding Door doesn't just slide — it glides.

Precision-engineered running gear ensures doors pass each other smoothly and quietly, year after year.

THE

External Door Collection

Bi-fold · Corner Bi-fold · French · Single

Three ways to frame your world — from ultra-slim 36mm profiles to the timeless 72mm design that started it all. Every External Door is precision engineered to the nearest millimetre for your exact opening.

Frame Your World

36MM

Maximises natural light with its ultra-slim sightlines.

49MM

Provides a timeless design for complete versatility.

72MM

Brings a reassuring presence to a home.

System: OB36+ - French Door with Fixed Flags - Jet Black - 9005T

36mm

ENHANCED AESTHETICS, ADVANCED PERFORMANCE

36mm External Door

This evolution in design introduces a new level of refinement. It combines ultra-slim profiles with elite levels of engineering to bring your home security, efficiency and beauty. Slender sightlines deliver a chic, minimalistic finish, whilst advanced thermal technologies make it our most efficient External Door to date.

ADDITIONAL FEATURES

- Industry-leading U-Values as low as 0.78 W/m²K
- Vast maximum sizes, suitable for apertures up to 15m
- Available with exclusive hardware and textured finishes

System: OB49 · Configuration: Bi-fold 6+0 · Blue Grey – 7031M

49mm

SLIM, STRONG AND BEAUTIFULLY BALANCED

49mm External Door

Bringing you the best of both worlds, this 49mm Door delivers a harmonious aesthetic to your home. Re-engineered from our award-winning original 72mm Door, it builds on everything that made the first-generation system so successful, with an enhanced design and slimmer proportions that draw more natural light into the home.

ADDITIONAL FEATURES

- Smooth, quiet operation with precision-engineered running gear
- Works beautifully in both contemporary and heritage properties
- Backed by Origin's industry-leading guarantee of up to 20 years

System: OB72 - Configuration: Bi-fold 3+0 - Jet Black - 9005M

72mm

TIMELESS DESIGN, MODERN PERFORMANCE

72mm External Door

The first Origin External Door and the design that started it all, the OB72 redefined what aluminium bi-fold doors could be. Crafted from premium-grade aluminium, it delivers a more traditional look with wider sightlines, creating a bold design statement.

ADDITIONAL FEATURES

- Combines classic elegance with advanced manufacturing techniques
- Wider sightlines offer a comforting, heritage feel
- Built to last, with performance you can rely on for years to come

Three Design Styles

Soho Style

Inspired by one of the world's most iconic urban neighbourhoods, Soho brings a bold, industrial attitude with strong lines and confident detailing.

Gallery Style

Defined by expansive glazing, minimal sightlines and an abundance of natural light — all about openness, simplicity and framing views.

Georgian Style

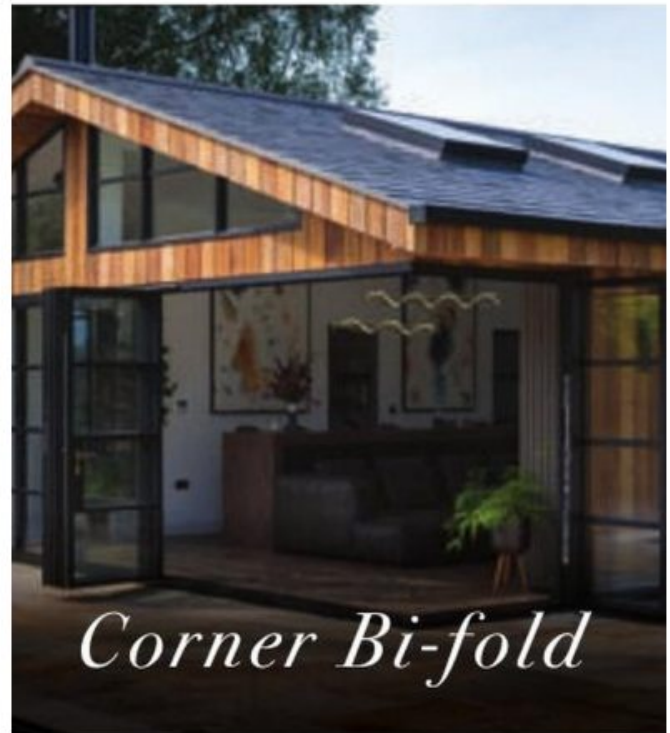

Influenced by traditional architecture, Georgian delivers a timeless charm with artisanal detailing and a heritage-inspired character.

Door Types

The External Door is available in a number of configurations, each engineered to the nearest millimetre for your opening.

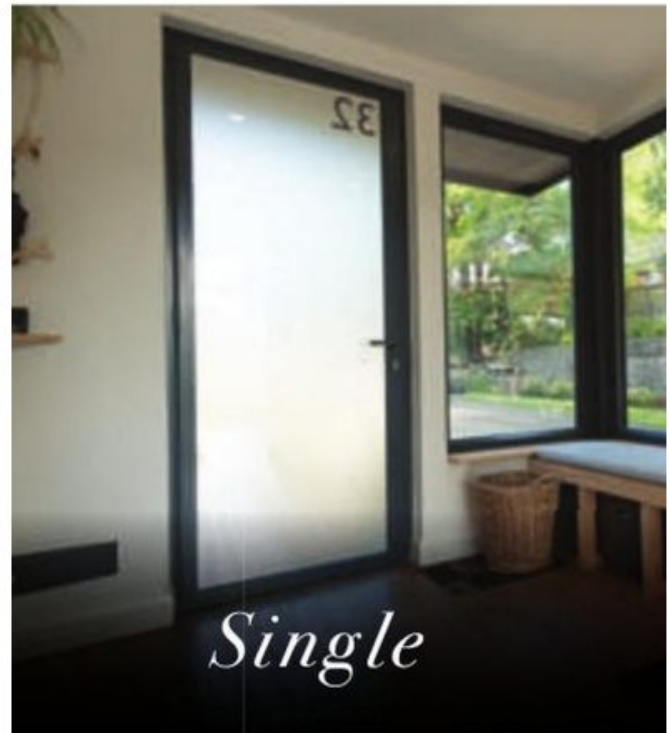

The most versatile door type, up to 14 sashes.

Turns a dark corner into a light-filled space.

A modern take on the traditional patio door.

Perfect for a side entrance or utility door.

OB49

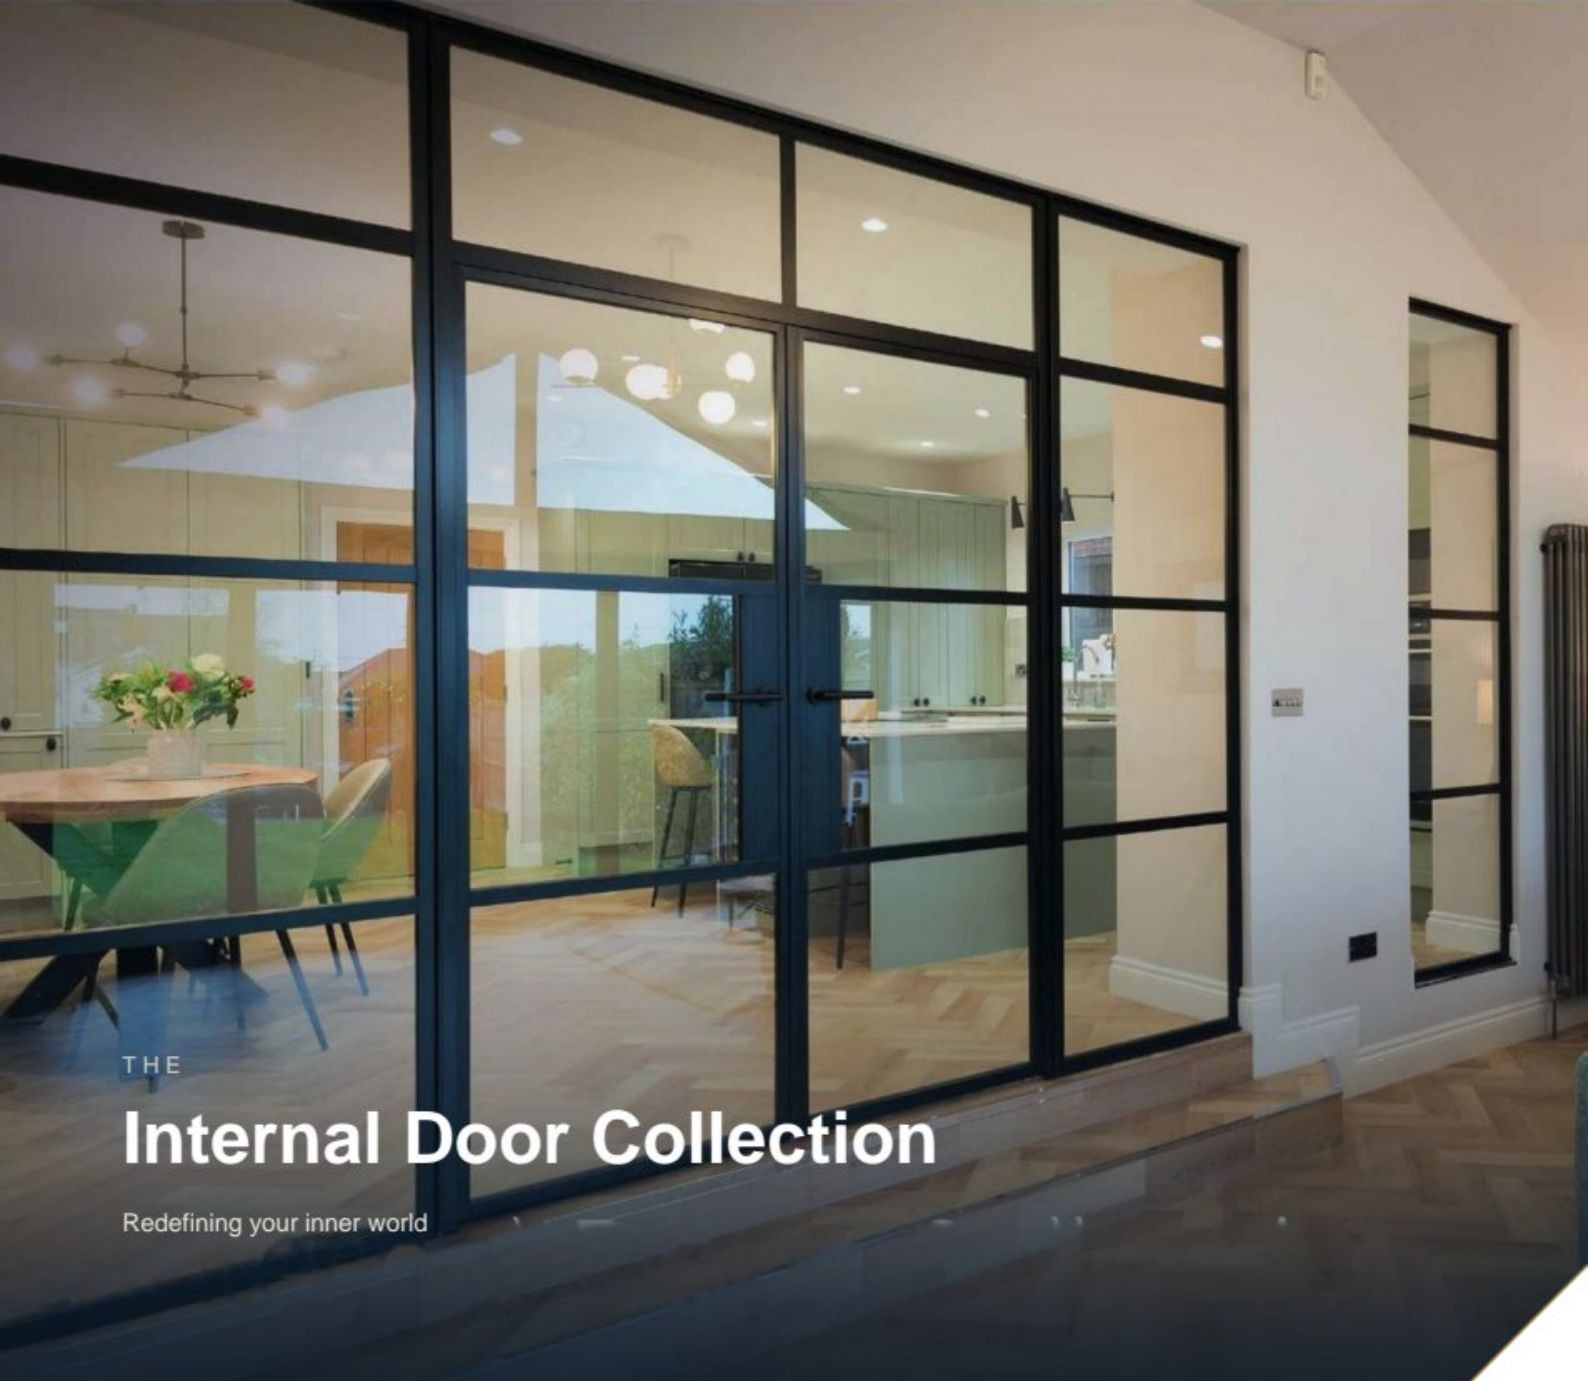

PRECISION-ENGINEERED RUNNING GEAR

Smooth by Design

The flawless operation of our External Door is a thing of wonder. Every movement feels effortless, thanks to an intelligently designed short wheelbase carriage assembly that guides the doors along the track — ensuring a quiet, fluid motion every time. With a gentle push, your living space transforms, revealing a whole new way to connect indoors with out.

ADDITIONAL FEATURES

- Slimline carriage designed for longevity and ease of use
- Minimal maintenance — keep frames clean, tracks clear, locks lubricated
- A reliable performance year after year

THE

Internal Door Collection

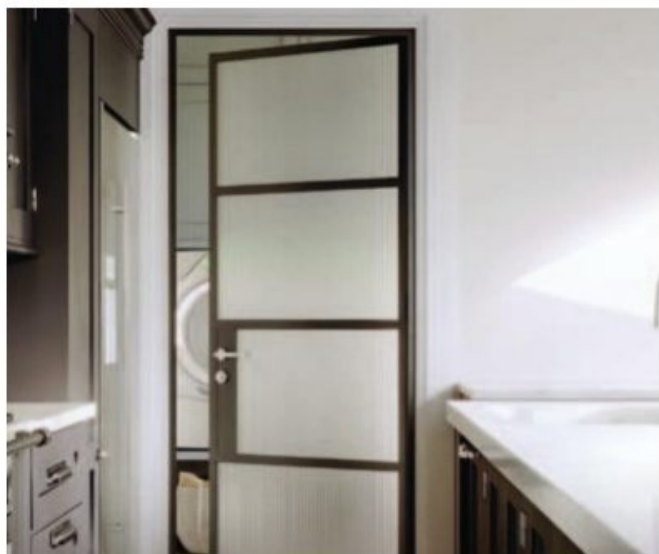

Redefining your inner world

Blending open plan with the need for privacy — it's all about balance. The Origin Internal Door range is a steel-look glazed wall and door system, allowing for a combination of light, air and space while creating the perfect ambience in a home.

With a glass divide sightline of just 30mm, the OI-30 offers more light and slimmer sightlines compared to steel and aluminium alternatives — available as a Single or French Door, and fully bespoke to your space.

Door Types

The Internal Door is available in a number of configurations, each engineered to the nearest millimetre for your opening.

Single Door

Ideal for brightening hallways, offices and bathrooms — up to 1,000mm wide.

French Door

Creates a real statement for sectioning off living or dining areas.

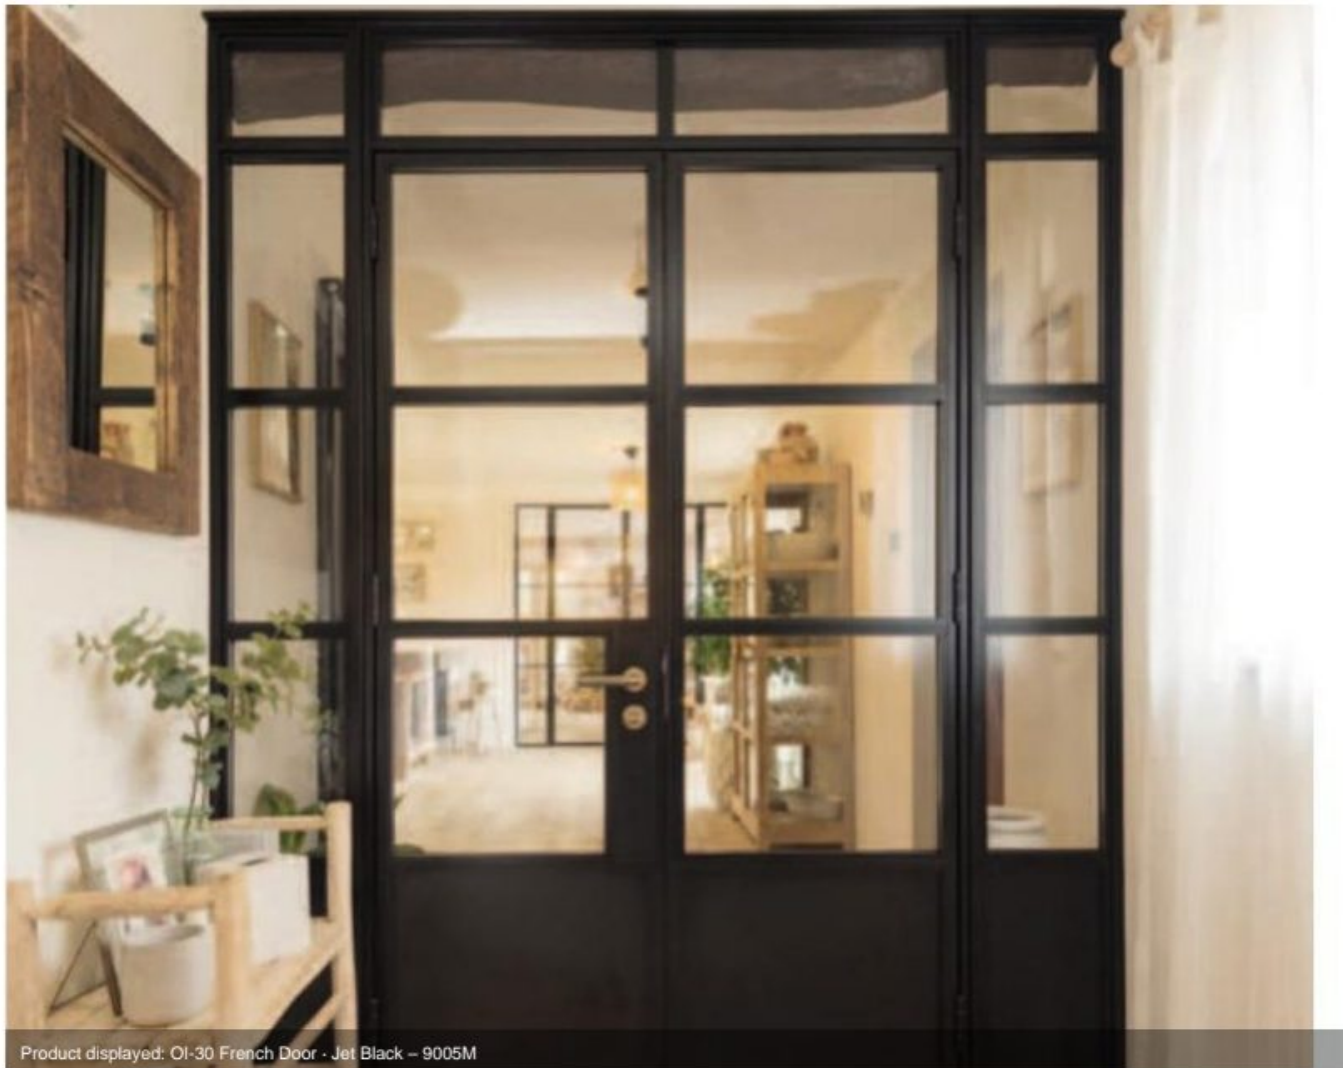

Corner Configurations

Combine doors with a corner post to section any space.

Fixed Wall, Screen or Room Divider

Extends the wall-of-glass look, or stands alone.

Product displayed: OI-30 French Door - Jet Black – 9005M

OI-30

REINVENT YOUR SPACE, WITH STYLE

Style, Flexibility & Functionality

We live in a time whereby the home environment has a greater need to support flexibility — a blend of remote working and the usual noise and distraction of day-to-day life. The OI-30 allows you to reinvent your space with style, practicality and functionality in mind, while allowing light and a sense of togetherness to remain. Fully bespoke, it can be configured with more glazing bars for a heritage aesthetic, or fewer for a minimalist, light-filled contemporary look.

ADDITIONAL FEATURES

- Single Door: up to 1,000mm wide x 2,500mm high — ideal for hallways, offices, bathrooms
- French Door: up to 2,060mm frame width, with optional top and side windows
- Choice of square or chamfered beading, blackout panels and kickplates

Product displayed: OI-30 Corner Configuration - Jet Black – 9005M

OI-30

ARCHITECTURAL VARIETY AND HERITAGE

Corner & Fixed Configurations

With its architectural variety and heritage, entrances don't have standard sizes here in the UK — which is why every Origin door or window is precision engineered to your custom dimensions. By combining Single or French Doors with a corner post and Fixed Screens, a Corner configuration can be created — ideal for a breakaway room or central boardroom, in residential or commercial settings alike.

ADDITIONAL FEATURES

- Fixed Screens extend the wall-of-glass look, above or alongside your door
- Corner configurations create an entirely new room, as big or small as required
- Can be used as a standalone Fixed Screen where access isn't required

HANDLED WITH STYLE

Hardware Options

A door's handle is fundamental to how it looks and feels — our hardware range is designed to complement every style, from contemporary to heritage.

GLASS, GLAZING & NEXT STEPS

Practical Information

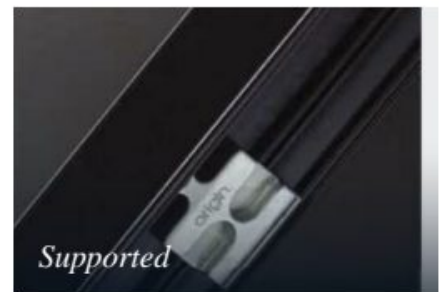

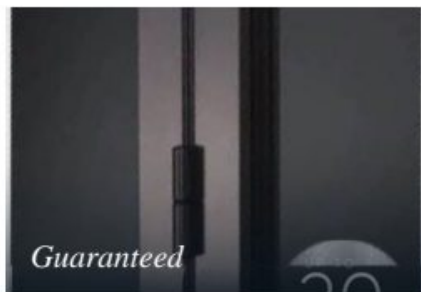

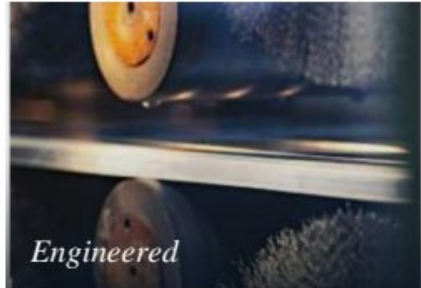

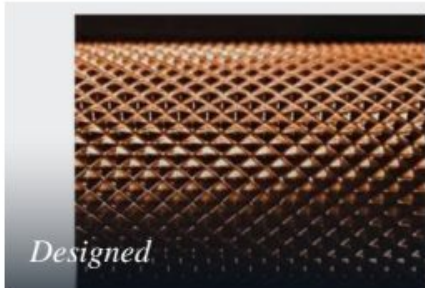

The Origin Internal Door Collection accommodates 4mm, 6mm or 6.8mm glazing units — clear, frosted or reeded — the latter offering privacy for a bathroom or concealing the laundry in a utility room, while still letting light travel through the home. Unlike much of the fenestration industry, Origin keeps full control of the product from design through to manufacture, so quality never varies.

ADDITIONAL FEATURES

- Visit origin-global.com to find your local Origin Partner and showroom
- Origin Partners are trained to deliver a reliable, knowledgeable service
- Your Partner or installer will discuss your building project and costs with you

ALL OF OUR PRODUCTS ARE EXCLUSIVELY

Designed, Engineered & Manufactured in the UK, by Us

UP TO A 20-YEAR GUARANTEE

... in the UK, by us.

Colour Choice, Redefined

Every project has its own personality — and with over 150 RAL colours to choose from, Origin gives you the palette to express it. From subtle neutrals to bold metallic tones, each shade has been curated to help you build a look that's uniquely yours.

We don't just meet industry standards — we redefine them. Our purpose-built powder-coating facility in Bicester uses 10 cleaning stages (vs. the industry's typical 5–7), for a flawlessly consistent, long-lasting finish.

CONFIDENCE

Built In

At Origin, we don't just claim or promise best practice — we prove it.

With complete confidence in our craft — the materials, the components and the construction — every Sliding Door is backed by a guarantee of up to 20 years¹ on parts, reflecting our commitment to long-term performance and reliability.

Additionally, with more ISO accreditations than any other UK manufacturer in our sector, we demonstrate excellence across quality, environmental responsibility and health and safety.

¹ Visit origin-global.com for full Terms and Conditions.

A photograph of a modern interior space, likely a living or dining area, featuring large windows and a glass door. The view through the glass shows an outdoor pool, a patio with a wicker sofa, and a well-manicured lawn. The interior has a high ceiling with a large, abstract, wavy glass sculpture hanging from it. The text "We don't just meet industry standards — we redefine them." is overlaid on the lower part of the image.

*We don't just meet industry standards — we
redefine them.*
